The Under Secretary of State, War Office. WAR OFFICE TO COLONIAL OFFICE.

War Office Pall Mall, S.W., 14th July, 1890 Bir, "I am directed by the Secretary of State for Wer to acknowledge the receipt of you etter of 23rd May, covering a despatch from the Governor of Hongkong, together with procaedings of the Legislative Council on the subjort of the rovised Military Contribution pay able by that Colony in aid of the cost of its

Military Defence. Although the contribution had been voted the Government of the Colony adopted reso'u tions objecting to the immediate payment of the full contribution on two main grounds 1-That the Armament to be provided

the Imperial Government was not yet it 2-That the full garrison had not yet beer

It was further objected that while your desatch of January last led the Colony to expect a Garrison of 2,525 Europeans, it was understood that one of the Battalions of Infantry was now to consist of Indian Troops.

Armament -Out of a total of 92 guas only 10 are wanting to complete the Armsment Hongkong. The enclosed statement shows that of them, the most important are 4 10-inch B.L. Guns. One of these is now awaiting ship. ment inother will be ready for shipmout in August, and the remainder (2) will be issued during. the course of this year. The delivery by the Contractors of the six 3-pounder quick-firing gans has been delayed owing to a strike in the trada, but they will all be delivered, by the end of this

2. Garrison. -If the Colonial Contribution covered the whole cost of the diarrison, there would undoubte ily be just grounds for elsimine the rebate for deficient numbers, which is gener, ally granted under such circumstances. The that which is actually present in the Colony. that no such claim arises in this area -In your despatch of January last, it is stated that " in dealing with the great question of the defence of the Empire it is difficult to lay down any other broad principle for dividing the cost country undertaking the mea-defence of the Colonies by means of her nevy, and of the Colonies, so far as their means allow, respective ly providing for their own land defence." The contribution offloughing was not fixed at 240,000 because that sum was considered all that a Colony should contribute towards the up-keep of garrison conting about £280,000, but because that contribution was considered to be all that the Colony at that time could be called upon to bear. As long as the Garrison at Hongkong costs so much more than the contribution

pays, there can be no claim to a reduction of that contribution on the ground of deficient numbers. When the contribution of £20,000; a year was fixed in 1863, with the intention of increasing itut the end of 5 years, an intention which was pever curried out, the garrison consisted of 1,000 of all ranks, its cost was \$100,000 and the revenue of the Colony was about 567.615 dollars. ... +h. garrison now present in Hongkong according to the latest returns, is 1,574 of all ranks the cost, is about £170,000. while the estimated income of the Colony for 1890 is 2,184.943 dollers, on more. than three times the revenue of 1863. In your despatch of January, the charge of 240,000 was estimated to amount to 17 per cent of the revanue Wicking, De Westley Layton, D. Noronho, A. of 1838. Owing to the subsequent growth of the B. Johnson, J. Michael, J. S. Perry, F. Gomest revenue and the appreciation in the value of C. Rarff A. S Garnt, C. Harton, S. L. Darby silver, the charge new only represents 11; per J. J. Prancis, Q.C., S. S. Benjamin, W. G. cent. of Gerenne as against !6} per cent. when Brodies and L. Hallward Georetar

Under these circumstances Mr. Stankops does

not consider that any grounds exist for delaying

the payment of the full contribution of \$240,000. With regard to the misunderstanding which has arisen as to the composition of the garrison. it is to be regretted that the correction of the turm "British Infants in the appendix to your despatch of January last, suggested by this Department, was not extended to similar expressions in the appendix and in the body of the despatch, which were calculated to misland the Coliny as to the intended composition of its guranon. As Lord Kuntsford is aware it was to these Debentures, and they regret to say one of the Infantry Battalions would in all probability consist of Indian troops. The Secretary of State for War is in communication with the Gavernor of India of the sabilet and Lord Kingtoford will be informed as soon me it is determined from what parts of India the Native Troops required for the Eastern Colonies shall be recruited. Livingston & Co. fo the purpose of decusing certain proposals for the future-working of the Co pany. There dere present :- Wester (U. S. Sharp (Chairman)

The CHAIRMA said-Gentlemen, in May last an extraordinary general meeting of chareholders in this Company was held for the purpose of discussing the pusition of the Company and to make arrengements for the further carrying on of the estate, and the Directors were then authorized to berrow money on an issue debentured to the extent of \$50,000, bearing inerest at twelve per centi per annum for the purpose of providing the funds necessary for cavifing on the cultivation of this season's orop. In accordance with the nowers thus given your Directors advertised for subscribers that the new issue has been so unsuccessafu only \$14,500 having been taken up so far, and there appears to be but little probability of further assistance coming from this source now. It was therefore pecessary to see what could be done in other directions for providing the necessary funds, and Mr. Stokes on leaving for home was requested to use every effort possible to obtain assistance at home. If would appear that Mrs. Stokes has been in pommynication with cortain people at home with the view of forming a Company to take over and work the estates of the three Planting Companies "East Borneo.
